

## **Biographical Details:-**

### **JAMES L. SUTHERLAND**

Was born in 1947 in Edinburgh, where he was raised and educated; he continues to live here with his wife and daughter. During his school years, he discovered and developed his passion for art.

Working from his studio, which is attached to his home, gives him the perfect environment in which to experiment with his artistic ideas and images: he constantly has new ideas, taking his influences from everywhere, inc. people, architecture, travels, other artwork and artists. He sees something in a magazine or an event and a painting emerges.

He works in a variety of media, subjects and styles. Working with oils allows him to experiment with the richness and flexibility of colour and the interplay of light that can be captured on canvas. He also enjoys the interpretation that comes when watercolour is applied to paper, the effects that are created and subjects that materialise. "The great thing about art is that it is a constant road of discovery."
